## Projects

### Restaurant Reservation System

December 2024

- Developed a web-based application for restaurant table reservations based on full stack development
- Designed and implemented a seat reservation feature for restaurant bookings, improving user experience and efficiency
- Features included like smooth landing page, about restaurant, live user feedback, location, menu of all items list.
- Created a visually appealing and user-friendly landing page to enhance customer engagement
- Utilized Express to develop a dynamic pricing template for automated price comparison, optimizing cost-effectiveness for users
- GitHub Repository Link: <https://github.com/DUDEKULARAHIM/sample-Restaurant-website>

**Tech Stack:** HTML5, CSS, JavaScript, Node.js, MongoDB

### Event Listing Calendar

March 2024

- Developed a dynamic event listing calendar enabling users to record and manage daily tasks efficiently
- Implemented a feature allowing users to view and track past events, enhancing task organization
- Enabled users to add events to past dates, providing flexibility in event logging.
- Integrated a PDF export functionality, allowing users to download a comprehensive list of their recorded events
- Designed an intuitive and responsive UI for seamless navigation and enhanced user experience
- GitHub Repository Link: <https://github.com/DUDEKULARAHIM/event-manager-calendar>

**Tech Stack:** HTML5, CSS, JavaScript, React.js

### QR-BAR code Generator

April 2023

- Develop a tool that generates QR codes and barcodes for user-provided links, allowing easy access and sharing
- The user inputs a website link, and the tool automatically generates both a QR code and a barcode
- Provides options to print or download the generated QR code and barcode for offline use
- Simplifies the process of creating QR codes and barcodes for quick access to web links
- Enhances usability by offering both printing and downloading options for convenience
- GitHub Repository Link: <https://github.com/DUDEKULARAHIMqr-bar-code-generator>

**Tech Stack:** HTML, CSS, JavaScript, React.js

## Certificates

### Data Structures and Algorithms (DSA) Certificate

August 2024 – November 2024

Neo CoLab- [Certificate](#)

### Object Oriented Programming Certification

July 2024 – September 2024

Neo CoLab- [Certificate](#)

### Server-side JavaScript with Node Js

July 2023 – August 2023

Coursera - [Certificate](#)

### HTML CSS JS For Web-Developer

June 2023 – August 2023

Coursera - [Certificate](#)

## Technical Skills

**Languages** C++, Java, Python, HTML, CSS, JAVASCRIPT

**Technologies/Frameworks:** React.js, Express, Node.js, Bootstrap, Git, GitHub

**Skills:** Data Structures and Algorithms, Problem-Solving, Responsive Web Design, Scripting in JavaScript

**Soft Skills:** Adaptability, Active listening, Problem solving, Time management

## Education

### Lovely Professional University

2022 – 2026

Computer Science and Engineering — CGPA: 7.86

Phagwara, Punjab

### Narayana Junior College

2020 – 2022

Intermediate; Percentage: 95%

Vijayawada, Andhra Pradesh

### Narayana E.M School

2019 – 2020

Matriculation — Percentage: 100%

Markapur, Andhra Pradesh
